

THE YOLO DEMOCRAT.

COUNTY OFFICIAL PRESS.

Town and County Matters.

[CORRESPONDENCE for this department is invited from all parts of the County, on any and all subjects of interest to the general reader, particularly items of news, accounts of crops, available lands for settlement, etc.]

Mrs. Laura DeForest Gordon.—This lady was posted about town to lecture in this place one day last week, on the subject of Woman Suffrage, but for some reason unknown to us failed to keep the appointment. On Wednesday last, however, fresh posters announced the lecture to take place on that evening at the Court House. The lecturer was promptly on hand and was listened to by a large and respectable audience. A female lecturer, in our town, is something of a novelty, and the subject of Woman Suffrage is one that would naturally excite curiosity, at least, if not a deeper interest. The subject was handled in a very masterly manner by the fair exponent, an excellent delivery, with apt illustrations and a few sound arguments, altogether made the lecture very entertaining. But it by no means follows that because an audience is pleased by the agreeable manner in which a question or subject is presented, they agree with the conclusions of the speaker. Indeed, we doubt if one quarter of those present would endorse them in the main. The chief grounds of the lecturer seemed to be, that Woman was as much entitled by nature to the franchise as the masculine portion of humanity; she was far more capable than many of the opposite sex who enjoyed the right, to exercise the use of the ballot intelligently; that the ignorant freedom of the South was far less capable of the proper use of the ballot than the intelligent woman of the country;—and on this point we shall most decidedly agree. Indeed, we claim that such a comparison is not complimentary to the women of America, but rather an insult to the good sense, intelligence and patriotism which a large majority of them possess. We do not propose to discuss the question, however, at present. But we do believe—and we say it boldly—that it would be far better for the country, as Mrs. Laura DeForest Gordon said, if, instead of enfranchising the ignorant dorkies of the South, the women of America—the mothers, wives, and daughters too, when old enough—had been granted the use of the ballot. The "social evil" was touched upon, and authorities quoted to show that the greatest cause of the fall of so many women in our large cities was poverty; the reason they gave was, necessity, and in many cases starvation. The lecturer thought much of this would be prevented by giving woman the ballot; also by opening the different channels of employment for which women were suited to them. Possibly so. But it has not come to that pass yet, in this country, where virtue, honesty, industry and perseverance will not secure a livelihood to woman as well as to man, and we trust it never will. An elegant peroration wound up the lecture, which was followed by presenting a petition for signatures to be forwarded to the Legislature and to Congress, asking those honorable bodies to grant to woman the right of suffrage. We failed to learn how many signatures were obtained or the amount of money collected. It was proposed by the lecturer to organize a Woman Suffrage Association for this county, which could send delegates to the State Convention to be held at San Francisco on the 26th instant.

THE GLORIOUS RAIN.—"God bless the rain," was the remark of a farmer in our hearing during a heavy shower the other day. "He was one of our well-to-do yeomanry, and had just finished the sowing of fifteen hundred acres of wheat. It would make many thousand dollars difference to him whether it rained or not within a short time. It did rain, finely, and every body rejoiced. The wheat fields are looking splendidly throughout all this region, promising a bountiful yield. The Southern part of the State has also been refreshed by heavy rains which were there much needed.

LOOK OUT FOR THE CROAKERS.—In this vicinity there was no great need of rain for crops before the late dispensation, but everyone seems to be glad we have got more of it. Some had begun to cry out that we should have a drought, when there was no present necessity for rain. This same claim, if the rain should continue a day or two longer than was agreeable to them, would be dissatisfied. Let them croak if they wish. We doubt if the weather could have been more favorable for our farmers than it has been thus far this winter.

ILLNESS OF JUDGE WOODS.—M. A. Woods, our County Judge, who was compelled to adjourn the last term of Court on account of being physically unable to preside, is still very ill and necessarily growing weaker from continued prostration and lack of nourishment, which he can take but very little. Mrs. Woods and a little son are also ill. They have the sympathy of the entire community.

ORANGES.—Fine oranges are grown at Knight's Landing. In some of the trees, the Apples say are one fourth larger than those grown in Marysville. Oranges are now ripening in every part of the State. Think of that, dwellers in the cold regions of the Mississippi and the Atlantic, and seek the genial climate of the golden State.

H. C. KIRK & Co.—The name of this old and tried Sacramento house is familiar to the readers of this paper. We take pleasure in recommending it as one of the best houses in the capital city, in every way reliable and honorable. They advertise with us regularly and we are pleased to know they have some good customers in this county.

RELISH SALOON, SACRAMENTO.—This establishment is kept by our old friend Jake L. Levison, formerly of Cottonwood, who is known to nearly all the residents of this county as a jolly good fellow and one worthy of patronage. His saloon is on K street, opposite the Academy of Music, and he makes it agreeable for all who call upon him.

W. PRICE & Co.—This wholesale house in Sacramento is gradually gaining patronage throughout the interior. Price and Levison, of the firm, were formerly residents of this place, and acknowledged by all to be men of great business capacity and sterling integrity. Their stock is large and complete.

COLLECTIONS MADE.—T. C. Pockman, of this place, advertises to do a general collecting business. Those having bills against delinquent customers would do well to place them in his hands for collection. We intend shortly to engage his services.

READ & MAGER.—Take a look at the double-column advertisement of this firm in to-day's Democrat. They do business on the square all the time, and knowing this to be the case, it is a pleasure to deal with them.

RIVER RISING.—The late rains have caused the waters of the Sacramento River to rise seven feet at Knight's Landing, greatly improving navigation. The waters are still much lower than usual at this season of the year.

SHOW ON THE MOUNTAINS.—The Sierra Nevada and the Coast Range are tipped with snow. The effect, viewed from this point on a clear day, is strangely beautiful.

AUCTION OF FLOWERS, SHRUBBERY, ETC.—A choice assortment of shade and ornamental trees, shrubbery, flowering plants, etc., will be sold at auction to-day, opposite Freeman's store, in this place.

The Sutor Tunnel.

The "Sutor Tunnel" is reported as very rapidly and satisfactorily to those favorably interested. We said favorably, because, as we understand, there are those who are unfavorably interested, that is, interested to prevent its construction under its present directors, if possible. We know of but one reason why any one should be opposed to the progress and completion of this good work; that reason, to them, doubtless, is, that they look upon it as a very promising work, and would like to get the control of it. Some of the readers of the *Democrat* may not possibly know the purpose and proportions of the Sutor Tunnel enterprise. It is known to most people who care at all about mines and mining, that the Comstock Lode of Virginia City and Gold Hill has ceased to be very profitable, if at all so, to owners of stock in its "claims." Those located on it, that formerly paid princely dividends, have generally ceased paying profits, except to the mills which work the ores. This is, because the vein has been worked to a point so deep that the cost of opening cuts up all the profits. The plan of Mr. Sutor is to run a tunnel from the edge of Carson River plain, under the mountains, for a distance of some twenty thousand feet, and strike the Comstock Lode at a depth of some two thousand feet below its outcroppings, or something like three thousand feet from the surface, following the dip of the lode. This would enable the Companies to work to the level of the tunnel, and, besides, there is a pretty fair chance, as it progresses, of striking valuable veins of ores in that country, which is exceedingly metalliferous. But, should it do nothing more than drain the Comstock Lode and enable the different Companies to work their claims to the depth of fifteen hundred or two thousand feet below the present lowest levels, it will double the value of the Comstock at its present days. It has been regularly organized, with a number of our wealthiest citizens as Directors and other officers; the stock is on the market; and any fine day it may take a jump upward should the tunnel cut a valuable vein. But without such fortunate event, it is pretty certain, if completed, to add exceedingly to the real estate values of Nevada, and its good effects will be sensibly felt in San Francisco.—*Call.*

A MARRIED LADY in St. Paul has been in a trance state for six weeks, and her husband refuses to send for a doctor. He says he intends to enjoy a quiet time as long as possible.

DIED.—In San Francisco, Jan. 16th, ALVA KENDALL, aged 10 years—step-son of J. W. Snowball, of Knight's Landing.

Near Woodland, Jan. 16th, LEWIS N. RUMSEY, aged 26 years.

SPECIAL NOTICES.

PAIN KILLER.—No article ever attained to such unbounded popularity as *Dr. Walker's Vinegar Bitters*. In an article of great merit and value, *Dr. Walker's Vinegar Bitters* is a speedy cure for pain—no family should be without it. *Dr. Walker's Vinegar Bitters* is a remedy that has yet surpassed the Pain Killer, which is the most valuable family medicine now in use. It has real merit, as a means of removing pain, no medicine has acquired a reputation so quick to Perry Davis' Pain Killer. *Dr. Walker's Vinegar Bitters* is a remedy that has yet surpassed the Pain Killer, which is the most valuable family medicine now in use. It has real merit, as a means of removing pain, no medicine has acquired a reputation so quick to Perry Davis' Pain Killer.

Business men, worn by care and sedentary habits, often suffer from constipation of the bowels, and it may be safely asserted that a majority of the female sex are little better than invalids from the same cause; but by using *Dr. Walker's Vinegar Bitters*, this natural aperient and tonic brings back the vigor and buoyancy of health.

An exchange says: "The surprising curative efficacy of *Dr. Walker's Vinegar Bitters*, in a great variety of chronic diseases, especially those of the bowels, is now being established by ordinary treatment, cannot be explained. Nature, aided by art, has here provided a rare combination of medicinal and medicinal properties adapted to the cure of diseases common to all mankind."

The effect of *Dr. Walker's Vinegar Bitters*, when taken for its cathartic properties, are very different from those of any other medicine prepared specially for that purpose. There is no nausea or disturbance of the stomach, and instead of causing any sense of languor or debility, it seems rather to invigorate the whole system, and excite the keenest appetite.

DR. HUFELAND'S CELEBRATED SWISS STOMACH BITTERS.

The first and most healthful Tonic ever introduced into the United States is still the leading article, and more of this sold than of all other so-called Tonics or Bitters.

For sale to the Trade by TAYLOR & BENDEL, sole agents, 409 and 411 Clay street, San Francisco.
